

Furniture

The Helmi portfolio of products has been designed for ultimate flexibility and can be used on a large spectrum of interior projects from handcrafted kitchens and furniture to interior trim and mouldings. Available in matt, semi-matt and gloss the Helmi range of interior paints is a simple solution for finishing furniture, interior trim, doors, facings and skirting. Quick drying with excellent flow properties it makes the applicators job simple

Helmi is available in a wide range of classic and contemporary colours and provides a hardwearing scrub resistant finish. Please contact our distributor in Ireland for further information.

The Helmi range has a solution for almost any interior project.

Cleaning

Maalipesu (Cleaning Agent)

Walls, floors, furniture, doors, building boards, boats, etc.

Cleans unpainted surfaces by removing dirt, grease, oil, wax etc. Also suitable for pre-treatment of hard and glossy paint surfaces prior to painting. Undiluted Maalipesu cleans the surface and generates a matt finish that improves adhesion of the new paint coat.

Latex and other matt paint surfaces can be pre-treated with diluted Maalipesu (1 part Maalipesu, 10 parts water or 1 part Maalipesu, 5 parts water).

Maalipesu is especially suitable for cleaning very dirty surfaces, where strong dissolving power is needed without the adverse effects of solvents. Maalipesu is not recommended for washing a metal roof or used directly on unpainted galvanized surface.
